

16, Augusta Road

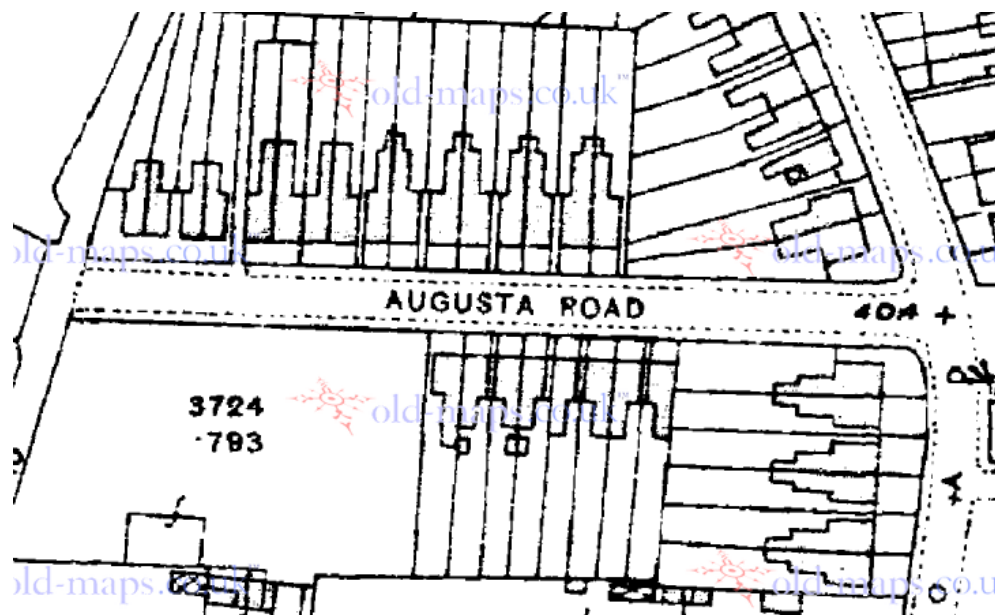

According to electoral records between 1918 and 1922, Robert was living with his mother, Eleanor, at number 16, Augusta Road. Is the current number 16 the same house?

The 1920 electoral register shows that Augusta Road had 9 (including number 3) houses on along one side and 16 houses along the opposite side.

This information ties in with the 1916 Ordnance Survey of Acocks Green reasonably well. As you can see below, the north side has 16 houses and the south has 8. Abbotsford must have faced Augusta Road but was probably situated on the Yardley Road (the road on the far right).

Taking this in to account, Robert & Eleanor would have been living on the north side of Augusta Road.

The register shows that number 16 was situated 9 houses from one end of the road and 8 from the other. Counting 9 houses from the left hand side of the map we arrive at the 5<sup>th</sup> block.

Applying this method on a map from 2015, we can see that the current number 16 is situated 9 houses from the left (Wynford Road) and 8 houses from the right (Yardley Road) in the 5<sup>th</sup> block. This has to be the same house that Robert & Eleanor lived in.

Current number 16
